

EU Budget for the future Smart Specialisation and CCS Ecosystems

Peter Berkowitz
DG Regional and Urban Policy
Brussels, 29 January

#CohesionPolicy
#EUinmyRegion

Smart specialisation in the 2014-2020 period ...

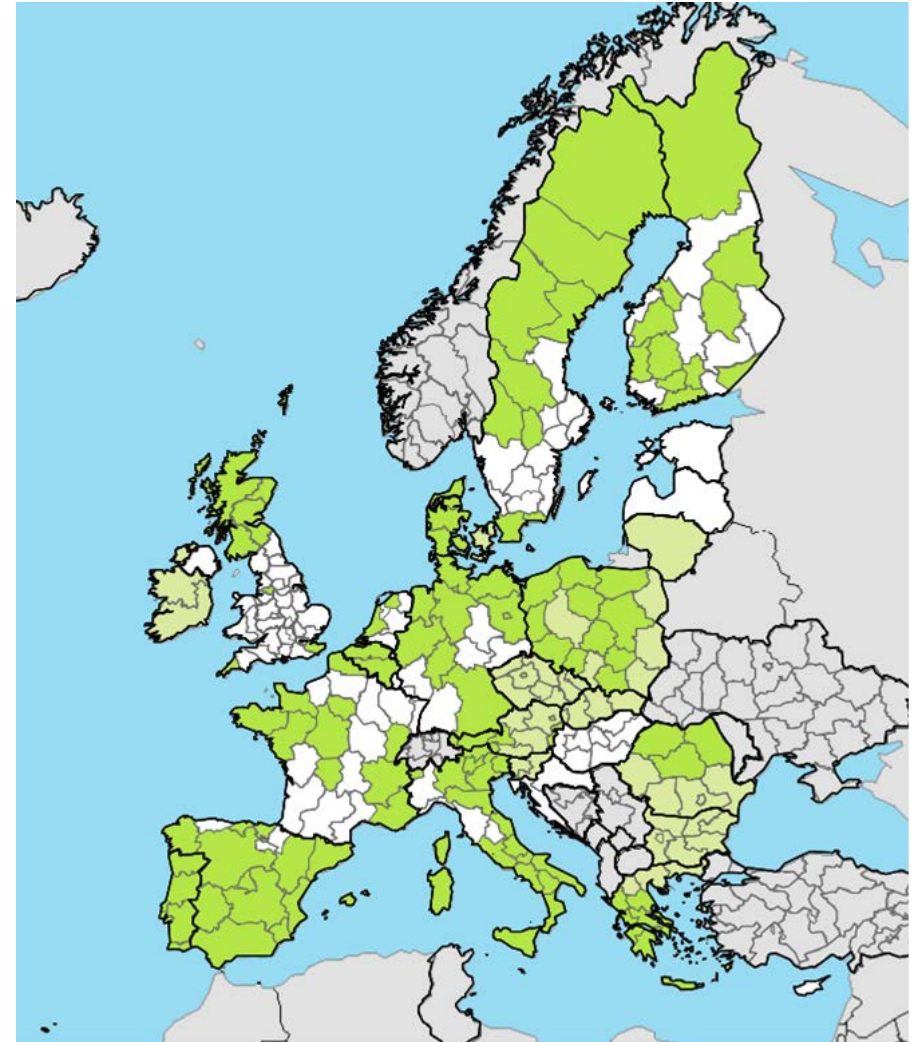

Integrated into Cohesion Policy (2014-2020) as ex-ante conditionality:

- EUR 40 billion from ERDF to finance R&I projects (EUR 65 billion including co-financing)
- Over 120 smart specialisation strategies supported by the S3-Platform

Place-based transformation embedded in local economy:

- Dynamic entrepreneurial discovery process
- Mobilisation across different departments and governance levels – triple/quadruple helix
- Concentration of resources on priorities

185 S3 priorities that relate to CCI sectors in 22 MS (124 regions)

Smart Specialisation post-2020

- Smart specialisation will play a greater role in Cohesion Policy in the future
- More tailored approach
- Reinforced role of EDP as an ongoing process
- Stronger links with industrial transition as part of adaptation to technological change, climate change and globalisation
- Broader focus of innovation, stronger role for intangibles
- Stronger links with Horizon Europe, Digital Europe and Single Market Programme
